

TERMS AND CONDITIONS

2. Authorized Users

World Scientific grants to the Licensee and Authorized Users (as defined below) online access via <http://ebooks.worldscinet.com> to each E-book purchased by the Licensee. This grant extends only to the Licensee and such Authorized Users individually and may not be transferred to or extended to others.

For the purposes of this Agreement, "Authorized Users" means only the employees, faculty, staff and students officially affiliated with the Licensee and persons granted legal access by the Licensee to the Licensee's library collections and facilities. The Licensee and the Authorized Users must always use an Internet Protocol address ("IP Address") within the range identified in the Appendix to this Agreement. Authorized Users may be persons remote from the Licensee's physical location whose access is administered from the Licensee's site or campus, but not persons at remote sites or campuses with separate administrations.

The Licensee will exercise reasonable vigilance and shall be responsible for all access control and security measures necessary to ensure that the Licensee's IP Addresses are not used by persons other than the Licensee or Authorized Users to access the E-books.

The Licensee warrants and represents that it will use reasonable efforts to inform Authorized Users of these terms and conditions. Furthermore, the Licensee will make every attempt to comply with or enforce these terms and conditions upon receiving information from World Scientific or any other source that reasonably indicates that one or more Authorized Users has violated these terms and conditions.

3. IP Addresses

Authorized Users will be recognized and authorized by their IP Address. IP Addresses and/or ranges of IP Addresses of the Licensee are indicated in the Appendix.

4. Permitted Use

The Licensee and Authorized Users are permitted access to the E-books as indicated in Clause 1 and 2 above, and may download, save, or print text, articles, abstracts, output, search results, or other information from such E-books ("Online Content") solely for the private use or research of the Licensee and/or the Authorized Users.

The Licensee and Authorized Users may only access the E-books in a way that conforms with all applicable laws.

World Scientific grants the Licensee and Authorized Users permission to make brief quotations from the text of the Online Content provided that the E-book source is acknowledged, and to copy and transmit text of up to one chapter from individual E-books in "person-to-person" and non-systematic scholarly exchanges of information between the Licensee or Authorized Users and specific individuals who may or may not be Authorized Users.

Licensee may fulfill occasional requests from other institutions, a practice commonly called Interlibrary Loan.

Licensee agrees to fulfill such requests in compliance with Section 108 of the United States Copyright Law (17 USC §108, "Limitations on exclusive rights: Reproduction by libraries and archives") and the

Guidelines for the Proviso of Subsection 108(2g)(2) prepared by the National Commission on New Technological Uses of Copyrighted Works, including the right to supply interlibrary loan copies using secure electronic transmission. The Subscriber specifically agrees that use by the Subscriber or Authorized Users other than indicated above.

The Licensee specifically agrees that use by the Licensee or Authorized Users other than indicated above is a breach of the terms and conditions of this Agreement.

5. Prohibitions on Certain Uses

Altering, recompiling, systematic or programmatic copying, reselling, redistributing, publishing or republishing (beyond such use as is allowed under Clause 4) of any Online Content, or any portion thereof, including without limitation, copyright, proprietary and/or other legal notices contained therein, in any form or medium, is prohibited. Systematic or programmatic downloading of Online Content (for example, downloading entire E-books), the provision of service bureau redistribution services in relation to Online Content, printing of Online Content for fee-for-service purposes and/or the systematic making of print or electronic copies of Online Content for transmission to non-Licensees or non-subscribing institutions, except as allowed in Clause 4, is prohibited. Downloading portions of Online Content for the purpose of creating pre-loaded, systematic and persistent local copies (not including transient, dynamic caches of individually requested material) for redistribution is prohibited. All rights not expressly granted are reserved by World Scientific.

6. Provision of MARC records and metadata

World Scientific shall supply MARC catalogue records and such additional metadata as it deems appropriate to the Licensee in respect of the E-books purchased or subscribed to under this Agreement at no additional charge to the Licensee.

7. Duration of Agreement

This Agreement will become effective on receipt by World Scientific of the Agreement signed by an authorized agent of the Licensee, and, subject to the terms and conditions of this Agreement, will remain in effect, in the case of purchase, without limit of time. Notwithstanding, this Agreement will terminate following thirty (30) days' prior written notice by World Scientific to the Licensee that any of the terms and conditions of this Agreement have been breached by the Licensee, for any reason, knowingly or unknowingly, provided that the breach is not remedied by the Licensee within the thirty (30) day notification period.

8. Continuing access for purchased E-books

World Scientific will use reasonable efforts to retain in an archive all electronic information published by World Scientific. Online access to E-books purchased under the terms of this Agreement shall be provided to the Licensee and Authorized Users by World Scientific free of charge. The Licensee also shall have the right to acquire archive copies of the E-books listed in clause 1 of this Agreement on CD-ROM, DVD-ROM or such other physical storage medium that may exist at such time and be offered by World Scientific ("Physical Archive Copy"), at the price set by World Scientific and published in its catalogue and price lists;

Where a Physical Archive Copy is supplied by World Scientific, the Licensee will be permitted to copy content from the Physical Archive Copy to the Licensee's information systems and to redistribute such content to Authorized Users. Any hardware or software required to view or distribute content from the Physical Archive Copy will be the responsibility of the Licensee. The definitions of

Authorized Users and allowed and prohibited uses of Online Content as provided in this Agreement shall continue to apply with all necessary modifications to the use of the Physical Archive Copy. Lost or damaged Physical Archive Copies will be replaced with copies in the then-current format for the then-current price.

9. Copyright

The E-books supplied under the terms of this Agreement are copyrighted as indicated in Clause 1 or as indicated within each E-book. World Scientific reserves to itself and to any third party copyright owners of E-books all rights not expressly granted in this Agreement. Unauthorized copying or redistribution of any copyright-protected E-book or Online Content is a violation of copyright laws.

10. Failure of performance

Following online access approval, the Licensee and Authorized Users will be permitted to attempt online access to the E-books at any time, without any limit on the number of Authorized Users accessing any single E-book simultaneously. World Scientific will not be liable for any delay, downtime, transmission error, software or equipment incompatibilities, force majeure or other failure of performance. World Scientific will use commercially reasonable efforts to correct any material performance or content problems brought to its attention and may suspend performance pending such correction.

11. Official Version of Record

World Scientific will use commercially reasonable efforts to ensure that the online E-books correspond in content with the printed editions of the same, but World Scientific does not guarantee that they do. In the event of any discrepancy between the print and online versions, the print version will be the official version of record.

12. Disclaimer of Warranties; Limitation of Liability; Indemnification

World Scientific warrants that it is entitled to grant the licences granted in this Agreement, and is authorized to execute this Agreement. Except as set forth in the preceding sentence, World Scientific makes no warranty or representation of any kind, express or implied, with respect to the E-books, including their quality, originality, suitability, searchability, operation, performance, merchantability or fitness for a particular purpose.

World Scientific shall not be liable for: exemplary, special, direct, indirect, incidental, consequential or other damages arising out of or in connection with the licences granted hereunder, the use of, the inability to use or errors in any E-book, World Scientific's performance under this Agreement, termination of this Agreement by World Scientific, viruses or bugs which may be contained in or caused by use of its E-book service or the Online Content or the loss of data, business or goodwill. In no event shall the total aggregate liability of World Scientific for any claims, losses or damages arising out of any breach or termination of this Agreement exceed the total amount paid by the Licensee to World Scientific for the purchase of E-books or the subscription for the current subscription year in which such claim, loss or damage occurred, whether in contract, tort or otherwise, including without limitation, due to negligence.

No claim may be made against World Scientific unless the suit is filed thereon within one (1) year after the event giving rise to the claim.

World Scientific and the Licensee shall indemnify and hold each other harmless for any losses, claims, damages, awards, penalties, or injuries incurred, including reasonable attorney's fees, which arise from

any alleged breach of the indemnifying party's representations and warranties made under this Agreement, provided that the indemnifying party is promptly notified of any such claims.

The indemnifying party shall have the right to defend such claims at its own expense. The other party shall provide assistance in investigating and defending such claims as the indemnifying party may reasonably request and have the right to participate in the defense at its own expense.

12. General

This Agreement, excluding the Appendix but including Clause 1, any entries made to all accompanying forms prior to delivery by the Licensee of this Agreement to World Scientific for signing shall constitute the entire agreement between the Parties and supersedes any and all prior or contemporaneous agreements, representations, warranties, and understandings between the Parties with respect to the specific subject matter of this Agreement.

The headings used in this Agreement are for convenience only and are not to be considered in construing the terms and conditions of this Agreement.

Subject to termination under Clause 6, this Agreement may be amended only by the consent (via mail, e-mail, or fax) of both parties. Licensee may not make any changes to this Agreement without written consent by World Scientific. No modification or claimed waiver of any provision of this Agreement shall be valid except by written amendment signed by authorized representatives of World Scientific and Licensee.

If for any reason, a court of competent jurisdiction finds any provision of this Agreement, or portion thereof, to be unenforceable, that provision shall be enforced to the maximum extent permissible so as to effect the intent of this Agreement, and the remainder of this Agreement shall continue in full force and effect and shall in no way be affected, impaired or invalidated.

I have read and agree to adhere to and abide by all the terms and conditions stated above, and I certify that I am authorized to sign this Agreement on behalf of the Licensee identified in Clause 1 above.

**APPENDIX
INSTITUTIONAL IP ADDRESSES/RANGES**

The World Scientific E-Book Service has enabled IP-address-based access control for institutional Licensees. Each computer that accesses the Internet is assigned an IP address, commonly represented as four number groups separated by dots (eg 192.16.1.128). All computers on a local area network, or subnet, may have the first two or three number groups in common. Access to World Scientific's journal(s) from your institution will be authorized based on the IP addresses and/or ranges you provide. (It is recommended that you consult with your network administrator to determine your IP addresses, subnets, and other critical information about your institution's network configuration).

World Scientific will accept up to ten (10) IP addresses and/or ranges (Class B, Class C, and single station) via this form (attach additional sheets as necessary). Note that Class B requests will be subject to additional review by World Scientific. Please contact Webmaster at World Scientific at [Text deleted] if you need to register a proxy or caching server, or if you have any additional questions.

All information provided regarding your IP addresses will be verified by World Scientific, and your network contact (which must be provided below) will be contacted if additional clarification is necessary.

Please type your IP addresses/ranges in the following formats:

Class B Network: Enter the first two (network) numbers and use asterisks for the host addresses, ie, 140.108.*.*

Class C Network: Type the first three (network) numbers and an asterisk for the host addresses, ie, 192.16.11.* (ranges are acceptable; type 202.40.130.* - 202.40.138.* to indicate Class C ranges).

Single Station(s): Type all four numbers, ie, 192.16.8.88 (ranges are acceptable; type 192.16.8.88 - 192.16.8.98 to indicate ranges of single stations).

IP Addresses and/or Ranges:

_____ See attached _____

(IP addresses may occasionally be updated and World Scientific will be notified of any changes) _____

Please enter your fully qualified domain name (the one registered with the Internet Corporation for Assigned Names and Numbers (ICANN)):

Please provide the following required network contact information:

Name: _____ [Text deleted] E-mail address: _____ [Text deleted] _____

Telephone: _____ [Text deleted] _____ Fax: [Text deleted] _____

Please check here if additional IP addresses are listed on attached sheet(s).
